PREFACE

This year we are providing an International Conference Recent Innovation (ICRI) 2018 holding together Asia Pacific Studies and Sustainable Development (APSSD), Asosiasi Dosen Indonesia (ADI) and host by Esa Unggul University, in conjunction with BICAS 2018 and BICSS 2018.

Asia Pacific Studies and Sustainable Development (APSSD) and Asosiasi Dosen Indonesia (ADI) both are research organization, particularly focusing on education, economics and information technology and communications.

The objectives of International Conference Recent Innovation (ICRI) 2018 are to establish a discourse on innovation and sustainable development that will engage policy-makers, government agencies, academic and research institutions and people concerned about the structural and institutional changes needed to make the transition and innovation development.

ICRI 2018 promotes integration of functional and behavioral areas of economic, business, education, ICT with concepts and methodologies of decision sciences and information systems, with explicit focus on modelling and applied decision-making. It offers practical guidance bridging the gap between theory and practice and draws on a wide range of disciplines, including accounting, decision sciences/management science, finance, information systems, marketing, operations/business process and strategic/organizational management.

ICRI 2018 provides a vehicle for dissemination and exchange of information between professionals, academics, researchers, policy-makers and educators and all others interested in innovative and challenging thinking about the complexities of sustainable development.

This year organizes Second International Conference, will focus in areas of scientific innovation and sustainable development and how it applies to the real world. It is an opportunity for researchers in this field to meet and discuss solutions, scientific results, and methods in solving intriguing problems in this field. The conference programme paper presentations, along with prominent keynote speakers. All submitted papers will be reviewed by experts in the field based on the criteria of originality, significance, quality and clarity. APSSD and ADI are currently inviting papers for the conference. This unique conference will be held in Jakarta the capital of Indonesia, 26-28 September 2018.

On behalf of the ICRI 2018 organizers, we wish to extend our warm welcome and would like to thank for the all Keynote Speakers, Reviewers, authors, and Committees, for their effort, guidance, contribution and valuable support. Last but not least, thanks to all lecturers and staffs of the Esa Unggul University other parties that directly and indirectly make this event successful.

Taqwa Hariguna
(Conference Manager)

COMMITTEES

HONORARY CHAIRS

Prof. Dr. Min Tsai Lai

University of Science and Technology of Southern Taiwan, Taiwan

Dr. Suharnomo

University of Diponegoro, Indonesia

Dr. Dino Patti Djalal

Chairman of Asosiasi Dosen Indonesia, Indonesia

Dr. Willy Abdillah

Universitas Negeri Bengkulu, Indonesia

STEERING COMMITTEE

Dr. Ir. Arief Kusuma, A.P., MBA

Universitas Esa Unggul, Indonesia

Dr. Eric Pardede

La Trobe University, Australia

Prof. Dr. Lee Jeong Bae

Sun Moon University, South Korea

Prof. Dr. Jalel Ben-Othman

University of Paris 13, France

Dr. Andree Emmanuel Widjaja

Universitas Pelita Harapan, Indonesia

Prof. Dr. Ritthikorn Siriprasertchok

Burapha University, Thailand

Dr. Djoko Soetarno

Coris and Neris, Indonesia

Prof. Dr. Hidetaka Nambo

Kanazawa University, Japan

Dr. Hoang Thi Thanh Ha

University of Danang, Vietnam

Dr. Akmal Tanjung

Ahmad Dahlan University, Indonesia

Dr. Daryanto

Leicester University, England

Dr. Wei-Ting Lin

National Chiao Tung University, Taiwan

Prof. Dr.rer.nat. Achmad Benny Mutiara

Gunadarma University, Indonesia

Dr. Berlilana

STMIK Amikom Purwokerto, Indonesia

Dr. Nguyen Huyen Trang

Dai Nam University, Vietnam

Associate Prof. Shih Chih Chen

National Kaohsiung First University of Science and Technology

CONFERENCE MANAGER

Dr. Taqwa Hariguna
College of Amikom Purwokerto, Indonesia

TECHNICAL PROGRAM COMMITTEE

Dr. Miroslav Kysely
Czech University of Life Sciences Prague, Czech Republic
Dr. Husni Teja Sukmana
Universitas Islam Syarif Hidayatullah Jakarta, Indonesia

ORGANIZING COMMITTEE

Dr. Agung Darmawan Buchdadi
Universitas Negeri Jakarta, Indonesia

PROGRAM COMMITTEE

Dr. ISMAIL SUARDI WEKKE
Sekolah Tinggi Ilmu Agama Islam Sorong, Indonesia
Dr. Iwan Setyawan
Universitas Kristen Satya Wacana, Indonesia

Publication

Dr. Yusuf Durachman
State Islamic University of Syarif Hidayatullah Jakarta, Indonesia

Track Chair:

Dr. A'ang Subiyakto
State Islamic University of Syarif Hidayatullah Jakarta, Indonesia

Technical Program Committee

Dito Anurogo	Muhammadiyah University Makassar
Hanafi Arief	Universitas Islam Kalimantan Banjarmasin
Ida Ariyani	Universitas Hasanuddin
Rudy Badrudin	STIE YKPN Yogyakarta
Wiga Maulana Baihaqi	College of Amikom Purwokerto
Agung Darmawan Buhdadi	Univeristas Negeri Jakarta
Ika Fitria Elmeida	Poltekkes Kemenkes Tanjungkarang
Rahmadya Trias	Universitas 45 Bekasi
Handayanto	
Sri Hartanto	Krisnadwipayana University
Jarkawi	Universitas Islam Kalimantan
Kristiyanto	Universitas Islam Negeri (UIN) Syarif Hidayatullah, Jakarta
Adi Suryaputra Paramitha	Universitas Ciputra Surabaya
Aswin Saputra	
Harlis Setiyowati	Sekolah Tinggi Ekonomi IPWI Jakarta
Santa Lorita Simamora	Akademi Komunikasi BSI Jakarta
Andang Sunarto	Islamic Business (IAIN Bengkulu)
Fandy Setyo Utomo	College of Amikom Purwokerto
Andree Emmanuel Widjaja	Universitas Pelita Harapan

Event Schedule

International Conference on Recent Innovations

ICRI 2018

Jakarta Hall Convention Center
Thursday-Friday, 27-28 September 2018

Thursday, 27 September 2018

Abstrat: Patient safety is a basic principle of health care and the right of every patient in receiving health services. The performance of patient safety as a quality performance of a hospital organization is influenced by the performance of nurses in it. Behind the efforts of Hospital X Tangerang Selatan in improving its service, there are still some challenges related to service quality indicators, especially in terms of the practice of carrying out patient safety in this hospital. Based on initial observations still found nurses who work regardless of patient safety principles. This study aims to determine the effect of individual characteristics of nurses, knowledge and work motivation of nurse on the implementation of patient safety program. The study was conducted on 30 respondents at inpatient unit of Hospital X in Tangerang Selatan. The research was done by quantitative method with correlational design. Data was collected by using questionnaires distributed to respondent to assess the respondent's information of age and years of service, their knowledge, work motivation and their implementation on patient safety program. Data analysis was performed using multivariat regression. Result of the research indicate that age variable and work motivation of nurse have positive and significant effect to the succesfull of patient safety program. Meanwhile, the nurse's working period and nurse's knowledge about patient safety did not significantly influence the implementation of patient safety program. Therefore, hospital management policies related to the improvement of nurse's work motivation need to be done to improve the success of the patient safety program.

The Evaluation of Personnel Application System to the Reliability of Transaction using CMM

Abstract: IT Audit is a process of testing control of information technology infrastructure which is related to the problem of financial audit and internal audit. This audit serves to check whether systems and applications according to the needs of the organization or company, powerful, has a fairly good control to ensure the validity, reliability, on-time and security on the input, process, output at all levels of activities of the system, because at present many Found problems in systems and applications that exist in organizations and companies. Audit and evaluation will find the problem and find the best solution to solve these problems by evaluating and collecting data related to the application system is used and measure and test the feasibility of the application system so that it can be seen the extent to which the system level applications already There is and how much improvement is needed. The personnel application system evaluated in this research is CV. Mahkota Jati which is engaged in household furniture and office. Once the application is evaluated, it is expected in the future, to be maintained, if necessary improved
